

BOYD GROUP INCOME FUND

INTERIM REPORT TO UNITHOLDERS
Second Quarter and Six Months Ended June 30, 2017

BOYD GROUP INCOME FUND

INTERIM REPORT TO UNITHOLDERS

Second Quarter and Six Months Ended June 30, 2017

To our Unitholders,

In the second quarter of 2017, we achieved record results in sales, adjusted EBITDA and adjusted net earnings¹. In addition, subsequent to the quarter end, we made a major acquisition that both increased our location count and better positioned us to achieve continued growth. Our confidence in our ability to reach our goal of doubling the company during the five-year period ending 2020 remains high.

A highlight of the past quarter was the signing of an agreement to acquire the assets and business of Assured Automotive Inc. and related entities ("Assured"). Assured adds 68 collision locations in Ontario, including 30 intake centers co-located at automotive dealerships. The acquisition was completed subsequent to the quarter end on July 4, 2017. This acquisition more than doubles our presence in Canada and provides a valuable footprint in Ontario, Canada's largest collision repair market. This increased regional presence establishes a platform for further growth, both through adding repair centers around our current locations and by establishing a presence in other parts of the province. There is also opportunity to leverage this into expansion to other parts of Eastern Canada. To facilitate that growth, Des D'Silva and Tony Canade, who together led the growth of Assured from nine locations to 68 locations in 12 years, have also joined Boyd.

In addition to the Assured centers, we have added 17 locations to date in 2017, bringing us to a total of 114 locations in Canada and 366 in the United States.

Sales for the quarter were \$384.0 million, a 16% increase over \$331.0 million in the second quarter of 2016. The increase in sales was the result of both contributions from new locations, along with continued same-store sales growth. Same-store sales for the quarter were \$339.4 million, a 3.4% increase over \$328.1 million in the second quarter of 2016.

In the second quarter of 2017, Adjusted EBITDA¹ grew to \$35.5 million, or 9.2% of sales, compared with \$30.5 million, or 9.2% of sales, in the prior year. Contributions from acquisitions and new locations along with same-store sales improvements and foreign exchange tailwinds were the drivers of the 16.3% increase.

The Fund recorded net earnings of \$0.4 million during the second quarter of 2017, compared to \$15.2 million in the same quarter the previous year. This change was primarily due to the negative impact of \$14.3 million in fair value adjustments to financial instruments resulting from the year-over-year increase in unit price. Excluding the impact of the fair value adjustments and acquisition and transaction costs, adjusted net earnings were \$15.0 million in the second quarter of 2017, a 10.1% increase over \$13.6 million the year before. Adjusted net earnings per unit for the second quarter of 2017 were \$0.831 per unit, compared to \$0.756 in the same period in 2016.

Adjusted distributable cash was \$31.5 million in the second quarter of 2017, a 5.9% increase over \$29.8 million in the same quarter of 2016, with \$2.4 million of distributions and dividends paid, resulting in a payout ratio based on adjusted distributable cash of 7.5%. In Q2 2016, the Fund's payout ratio based on adjusted distributable cash was 7.7%. On a trailing four-quarter basis, the payout ratio was 10.5% at June 30, 2017.

¹ EBITDA, Adjusted EBITDA, distributable cash, adjusted distributable cash and adjusted net earnings are not recognized measures under International Financial Reporting Standards ("IFRS"). Management believes that in addition to sales, net earnings and cash flows, the supplemental measures of distributable cash, adjusted distributable cash, adjusted net earnings, EBITDA and Adjusted EBITDA are useful as they provide investors with an indication of earnings from operations and cash available for distribution, both before and after debt management, productive capacity maintenance and non-recurring and other adjustments. Investors should be cautioned, however, that EBITDA, Adjusted EBITDA, distributable cash, adjusted distributable cash and adjusted net earnings should not be construed as an alternative to net earnings determined in accordance with IFRS as an indicator of the Fund's performance. Boyd's method of calculating these measures may differ from other public issuers and, accordingly, may not be comparable to similar measures used by other issuers. For a detailed explanation of how the Fund's non-GAAP measures are calculated, please refer to the Fund's MD&A filing

for the period ended June 30, 2017, which can be accessed via the SEDAR Web site (www.sedar.com).

With respect to the balance sheet, the Fund held total debt, net of cash, of \$93.8 million at June 30, 2017, compared to \$114.1 million at March 31, 2017 and \$85.3 million at June 30, 2016. On May 26, we increased our existing revolving credit facility to US\$300 million, with an accordion feature that can increase the facility to a maximum of US\$450 million. The facility is with a syndicate of Canadian and U.S. banks and matures in May 2022. This expanded facility, along with flexible covenants and an extended maturity, position us well to take advantage of opportunities in the market and continue to execute our growth strategy. This expanded facility was then used to fund the cash portion of the purchase price for Assured, increasing our proforma debt leverage ratio to 1.6x. Subsequent to completing the Assured acquisition, we have over \$460 million in cash and available credit.

Cash flow from operations, before considering working capital changes, was \$26.3 million for the three months ended June 30, 2017 compared with \$23.9 million for the same period in 2016. The increase reflects higher adjusted EBITDA due to growth in the business. Management continues to be confident that the Fund's capital resources remain sufficient to meet growth, working capital, capital expenditure and distribution requirements.

The second quarter of 2017 was successful in providing us with an even stronger growth platform and additional resources to advance our strategy. The North American collision repair industry remains highly fragmented and we see many opportunities to acquire attractive repair centers and achieve accretive growth. Operational excellence remains central to our business model and we will continue to work to drive excellence in customer satisfaction and repair cycle times, ensuring the continued support of our insurance partners.

On behalf of the Trustees of the Boyd Group Income Fund and Boyd Group employees, I would like to thank you for your continued support.

Sincerely,

(signed)

Brock Bulbuck Chief Executive Officer

Management's Discussion & Analysis

OVERVIEW

Boyd Group Income Fund (the "Fund"), through its operating company, The Boyd Group Inc. and its subsidiaries ("Boyd" or the "Company"), is one of the largest operators of non-franchised collision repair centers in North America in terms of number of locations and sales. The Company currently operates locations in five Canadian provinces under the trade names Boyd Autobody & Glass and Assured Automotive, as well as in 20 U.S. states under the trade name Gerber Collision & Glass. The Company uses newly acquired brand names during a transition period until acquired locations have been rebranded. The Company is also a major retail auto glass operator in the U.S. with locations across 31 U.S. states under the trade names Gerber Collision & Glass, Glass America, Auto Glass Service, Auto Glass Authority and Autoglassonly.com. The Company also operates a third party administrator, Gerber National Claims Services ("GNCS"), that offers glass, emergency roadside and first notice of loss services. GNCS has approximately 5,500 affiliated glass provider locations and 4,600 affiliated emergency roadside services providers throughout the U.S. The following is a geographic breakdown of the collision repair locations, including intake centers, and trade names.

ASSURED COLUMNS	114 centers	9erbe	RIASS	366 centers		GLASS-AMERICA

						gerber

Boyd provides collision repair services to insurance companies, individual vehicle owners, as well as fleet and lease customers, with a high percentage of the Company's revenue being derived from insurance-paid collision repair services. In Canada, government-owned insurers operating in Manitoba, Saskatchewan and British Columbia, dominate the insurance-paid collision repair markets in which they operate. In the U.S. and Canadian markets other than Manitoba and Saskatchewan, private insurance carriers compete for consumer policyholders, and in many cases significantly influence the choice of collision repairer through Direct Repair Programs ("DRP's").

The Fund's units and convertible debentures trade on the Toronto Stock Exchange under the symbol TSX: BYD.UN and TSX: BYD.DB.A.

The following review of the Fund's operating and financial results for the three and six months ended June 30, 2017, including material transactions and events up to and including August 10, 2017, should be read in conjunction with the unaudited interim condensed consolidated financial statements for the three and six months ended June 30, 2017, as well as the annual audited consolidated financial statements, management discussion & analysis ("MD&A") and annual information form ("AIF") of Boyd Group Income Fund for the year ended December 31, 2016 as filed on SEDAR at www.sedar.com.

SIGNIFICANT EVENTS

On January 4, 2017, the Fund announced the appointment of Tim O'Day as President & Chief Operating Officer.

On May 26, 2017, the Fund increased its existing revolving credit facility to US\$300 million, with an accordion feature which can increase the facility to a maximum of US\$450 million.

On May 29, 2017, the Company entered into a definitive agreement to acquire the assets and business of Assured Automotive Inc. and related entities ("Assured"), a multi-location collision repair company operating 68 locations in the province of Ontario, including 30 intake centers co-located at automotive dealerships. The acquisition of the assets and business of Assured closed on July 4, 2017, effective July 1, 2017. Assured generated sales of approximately \$150 million for the trailing twelve months ended March 31, 2017.

The Fund also added 17 new collision locations since January 1, 2017 as follows:

Date	Location	Previously operated as
January 6, 2017	Monroe, NC	Griffin Motors Collision Center
January 13, 2017	Phoenix, AZ (4 locations)	Brighton Collision
March 17, 2017	Portland, OR (2 locations)	True Form
March 31, 2017	Hinesville, GA	n/a start-up
April 19, 2017	Salem, OR	C.E. Miller Auto Body
April 27, 2017	Orem, UT	Adams G3 Collision Repair
May 30, 2017	St. Augustine, Florida	n/a start-up
June 14, 2017	Greensboro, GA	Rodfather's Collision Center & Sales
June 27, 2017	Spokane, WA	City South Auto Body of Spokane
August 4, 2017	Calgary, AB (4 locations)	Concours Collision Centres

OUTLOOK

Boyd continues to execute on its growth strategy. During 2017, the Company has added 17 locations in addition to the 68 locations added as part of the Assured acquisition for a total of 85 locations added to date, representing location count growth of 21% since the beginning of 2017. The second quarter of 2017 also saw improvement in same-store sales growth compared to the first quarter of 2017, with same-store sales growth of 3.4%. Management remains confident in its ability to double the size of the business and revenues (on a constant currency basis) during the five-year period ending in 2020, although the extent and timing of acquisition activity is expected to vary from quarter to quarter.

Looking forward, the Company will continue to pursue accretive growth through a combination of organic growth (same-store sales growth) as well as acquisitions and new store development. Acquisitions will include both single location acquisitions as well as multi-location acquisitions. Combined, this strategy is expected to double the size of the business and revenues (on a constant currency basis) during the five-year period ending in 2020, implying an average annual growth rate of 15%. With prudent financial management and its strong balance sheet, Boyd is further well-positioned to take advantage of large acquisition opportunities, should they arise, which could accelerate the time frame to double its size. It is expected that this growth can be achieved while continuing to be disciplined and selective in the identification and assessment of all acquisition opportunities.

As performance based DRP programs with insurance companies continue to develop and evolve it is becoming increasingly important that top performing collision repairers, including Boyd, continue to drive towards higher levels of operating performance as measured primarily by customer satisfaction ratings, repair cycle times and average cost of repair. To this end, Boyd will continue to make investments to enhance its processes and operational performance.

Looking ahead to the third quarter, the Company is facing significant currency headwinds as the recent increase in the value of the Canadian dollar compared to the U.S. dollar will make second quarter to third quarter and year-over-year comparisons challenging. While it is still very early in the quarter, and conditions could therefore change as the quarter continues, thus far in the third quarter the glass business continues to face pricing and market challenges that are causing it to underperform in comparison to last year.

Management remains confident in its business model and its ability to increase market share by expanding its presence in North America through strategic acquisitions alongside organic growth from Boyd's existing operations. Accretive growth

remains the Company's focus whether it is through organic growth or acquisitions. The North American collision repair industry remains highly fragmented and offers attractive opportunities for industry leaders to build value through focused consolidation and economies of scale. As a growth company, Boyd's objective continues to be to maintain a conservative distribution policy that will provide the financial flexibility necessary to support growth initiatives while gradually increasing distributions over time. The Company remains confident in its management team, systems and experience. This, along with a strong statement of financial position and financing options, positions Boyd well for success into the future.

BUSINESS ENVIRONMENT & STRATEGY

As at August 10, 2017, the business environment of the Company and strategies adopted by management remain unchanged from those described in the Fund's 2016 annual MD&A.

CAUTION CONCERNING FORWARD-LOOKING STATEMENTS

Statements made in this interim report, other than those concerning historical financial information, may be forward-looking and therefore subject to various risks and uncertainties. Some forward-looking statements may be identified by words like "may", "will", "anticipate", "estimate", "expect", "intend", or "continue" or the negative thereof or similar variations. Readers are cautioned not to place undue reliance on such statements, as actual results may differ materially from those expressed or implied in such statements.

The following table outlines forward-looking information included in this MD&A:

Forward-looking Information	Key Assumptions	Most Relevant Risk Factors
The stated objective of generating growth sufficient to double the size of the business over the five-year period	Opportunities continue to be available and are at acceptable and accretive prices	Acquisition market conditions change and repair shop owner demographic trends change
ending in 2020	Financing options continue to be available at reasonable rates and on acceptable terms and conditions	Credit and refinancing conditions prevent or restrict the ability of the Company to continue growth strategies
	New and existing customer relationships are expected to provide acceptable levels of revenue opportunities	Changes in market conditions and operating environment Significant declines in the number of insurance claims
	Anticipated operating results would be	Integration of new stores is not accomplished as planned

We caution that the foregoing table contains what the Fund believes are the material forward-looking statements and is not exhaustive. Therefore when relying on forward-looking statements, investors and others should refer to the "Risk Factors" section of the Fund's Annual Information Form, the "Business Risks and Uncertainties" and other sections of our Management's Discussion and Analysis and our other periodic filings with Canadian securities regulatory authorities. All forward-looking statements presented herein should be considered in conjunction with such filings.

NON-GAAP FINANCIAL MEASURES

EBITDA AND ADJUSTED EBITDA

Earnings before interest, taxes, depreciation and amortization ("EBITDA") is not a calculation defined in International Financial Reporting Standards ("IFRS"). EBITDA should not be considered an alternative to net earnings in measuring the performance of the Fund, nor should it be used as an exclusive measure of cash flow. The Fund reports EBITDA and Adjusted EBITDA because it is a key measure that management uses to evaluate performance of the business and to reward its employees. EBITDA is also a concept utilized in measuring compliance with debt covenants. EBITDA and Adjusted EBITDA are measures commonly reported and widely used by investors and lending institutions as an indicator of a company's operating performance and ability to incur and service debt, and as a valuation metric. While EBITDA is used to assist in evaluating the operating performance and debt servicing ability of the Fund, investors are cautioned that EBITDA and Adjusted EBITDA as reported by the Fund may not be comparable in all instances to EBITDA as reported by other companies.

The CPA's Canadian Performance Reporting Board defined standardized EBITDA to foster comparability of the measure between entities. Standardized EBITDA represents an indication of an entity's capacity to generate income from operations before taking into account management's financing decisions and costs of consuming tangible and intangible capital assets, which vary according to their vintage, technological age and management's estimate of their useful life. Accordingly, standardized EBITDA comprises sales less operating expenses before finance costs, capital asset amortization and impairment charges, and income taxes. Adjusted EBITDA is calculated to exclude items of an unusual nature that do not reflect normal or ongoing operations of the Fund and which should not be considered in a valuation metric or should not be included in assessment of ability to service or incur debt. Included in this category of adjustments are the fair value adjustments to exchangeable Class A common shares, the fair value adjustments to unit based payment obligations, the fair value adjustments to convertible debenture conversion features and the fair value adjustments to the non-controlling interest put options. These items are adjustments that did not have any cash impact on the Fund. Also included as an adjustment to EBITDA are acquisition and transaction costs which do not relate to the current operating performance of the business units but are typically costs incurred to expand operations. From time to time, the Fund may make other adjustments to its Adjusted EBITDA for items that are not expected to recur.

The following is a reconciliation of the Fund's net earnings to EBITDA and Adjusted EBITDA:

	Fo	r the three Jun	mon e 30,	For the six months ended June 30,						
(thousands of Canadian dollars)		2017		2016		2017		2016		
Net earnings	\$	421	\$	15,212	\$	15,433	\$	15,494		
Add:

Adjusted EBITDA	\$	35,478	\$	30,511	\$	68,264	\$	60,001		

ADJUSTED NET EARNINGS

In addition to EBITDA and Adjusted EBITDA, the Fund believes that certain users of financial statements are interested in understanding net earnings excluding certain fair value adjustments and other unusual or infrequent adjustments. This can assist these users in comparing current results to historical results that did not include such items. The following is a reconciliation of the Fund's net earnings to adjusted net earnings:

	I	For the three Jun	 	For the six months ended June 30,						
(thousands of Canadian dollars, except per unit amounts)		2017	2016	2017		2016

Maintaining Productive Capacity

Productive capacity is defined by Boyd as the maintenance of the Company's facilities, equipment, signage, courtesy cars, systems, brand names and infrastructure. Although most of Boyd's repair facilities are leased, funds are required to ensure facilities are properly repaired and maintained to ensure the Company's physical appearance communicates Boyd's standard of professional service and quality. The Company's need to maintain its facilities and upgrade or replace equipment, signage, systems and courtesy car fleets forms part of the annual cash requirements of the business. The Company manages these expenditures by annually reviewing and determining its capital budget needs and then authorizing major expenditures throughout the year based upon individual business cases.

During 2016 and continuing into 2017, the Company embarked on further transformation of its information technology infrastructure. That program includes upgrading its management information systems as well as hardware, network and security. In 2017, the Company spent \$2.1 million on this technology infrastructure. Over the next year, the Company expects that capital expenditures in these areas will be \$8 to \$10 million in excess of historical maintenance capital expenditure levels. Additionally, in 2017, the Company intends to invest \$4 to \$5 million in specialized collision repair equipment related to new vehicle technologies. These proactive investments will better position the Company to meet anticipated market needs.

In many circumstances, large equipment expenditures including automobiles, shop equipment and computers can be financed using either operating or finance leases. Cash spent on maintenance capital expenditures plus the repayment of operating and finance leases, including the interest thereon, form part of the distributable cash calculations.

Non-recurring and Other Adjustments

Non-recurring and other adjustments may include, but are not limited to, post closure environmental liabilities, restructuring costs and acquisition and transaction costs. Management is not currently aware of any environmental remediation requirements. Acquisition and transaction costs are added back to distributable cash as they occur.

Debt Management

In addition to finance lease obligations arranged to finance growth and maintenance expenditures on property and equipment, the Company has historically utilized long-term debt to finance the expansion of its business, usually through the acquisition and start-up of collision and glass repair and replacement businesses. Repayments of this debt do not form part of distributable cash calculations. Boyd's bank facilities include restrictive covenants, which could limit the Fund's ability to distribute cash. These covenants, based upon current financial results, would not prevent the Fund from paying future distributions at conservative and sustainable levels. These covenants will continue to be monitored in conjunction with any future anticipated distributions.

The following is a standardized and adjusted distributable cash calculation for 2017 and 2016:

	Fo	or the three			For the six months ended						
(thousands of Canadian dollars, except per unit and		Jun	e 30,			June

⁽¹⁾ As defined in the non-GAAP financial measures section of the MD&A.

⁽²⁾ Includes sustaining expenditures on plant and equipment, information technology hardware and computer software but excludes capital expenditures associated with acquisition and development activities including rebranding of acquired locations. In addition to the maintenance capital expenditures paid with cash, during 2017 the Company acquired a further \$1.0 million (2016 - \$2.5 million) in capital assets which were financed through finance leases and did not affect cash flows in the current period.

The Company has added back to distributable cash the costs related to acquisitions excluding non-cash other gains.

⁽⁴⁾ Repayments of these leases represent additional cash requirements to support the productive capacity of the Company and therefore have been deducted when calculating adjusted distributed cash.

2^{nd} Quarter Comparison – Three months ended June 30, 2017 vs. 2016

Sales

Sales totaled \$384.0 million for the three months ended June 30, 2017, an increase of \$53.0 million or 16.0% when compared to 2016. The increase in sales was the result of the following:

- \$29.1 million of incremental sales were generated from 54 new locations
- Same-store sales excluding foreign exchange increased \$11.3 million or 3.4% and increased a further \$13.7 million due to the translation of same-store sales at a higher U.S. dollar exchange rate. The increase in same-store sales percentage was negatively impacted by approximately 1.3 percentage points due to the loss of a significant customer in GNCS during 2017.
- Sales were affected by the closure of three under-performing facilities which decreased sales by \$1.1 million.

Same-store sales are calculated by including sales for stores that have been in operation for the full comparative period.

Per diluted unit and Class A common share amounts have been calculated in accordance with definitions of dilution and anitdilution contained in IAS 33, *Earnings per Share*. Diluted distributable cash amounts will differ from average distributable cash amounts on a per unit basis if earnings per unit calculations show a dilutive impact.

⁽⁶⁾ The transfer of cash during the period to the external partners of Glass America, associated with the taxable income and tax liabilities being allocated to them.

Gross Profit

Gross Profit was \$178.3 million or 46.4% of sales for the three months ended June 30, 2017 compared to \$152.7 million or 46.1% of sales for the same period in 2016. Gross profit increased as a result of growth in the business and improved gross margin percentage compared to the prior period. The gross margin percentage increase is primarily due to some improved DRP pricing as well as certain cost reductions, partially offset by higher labour costs, but is considered to be within the normal range for period to period fluctuations.

Operating Expenses

Operating Expenses for the three months ended June 30, 2017 increased \$20.6 million to \$142.8 million from \$122.2 million for the same period of 2016. Excluding the impact of foreign currency translation, which increased operating expenses by approximately \$5.6 million, expenses increased \$15.4 million from 2016 primarily as a result of new locations. Closed locations lowered operating expenses by \$0.4 million.

Operating expenses as a percentage of sales were 37.2% for the three months ended June 30, 2017, which compared to 36.9% for the same period in 2016. The increase in operating expenses as a percentage of sales was primarily due to the impact of higher operating expense ratios associated with recent acquisitions as well as higher salary and wages expense. The glass business also continues to face pricing and market challenges that cause it to underperform in comparison to last year, which has resulted in increased operating expense ratios during the second quarter of 2017.

Adjusted EBITDA

Earnings before interest, income taxes, depreciation and amortization, adjusted for the fair value adjustments related to the exchangeable share liability and unit option liability, convertible debenture conversion features and non-controlling interest put option, as well as acquisition and transaction costs ("Adjusted EBITDA")² for the three months ended June 30, 2017 totaled \$35.5 million or 9.2% of sales compared to Adjusted EBITDA of \$30.5 million or 9.2% of sales in the prior year. The \$5.0 million increase was primarily the result of improvements in same-store sales along with incremental EBITDA contribution from acquisitions and new locations. Changes in U.S. dollar exchange rates in 2017 increased Adjusted EBITDA by \$1.3 million.

Depreciation and Amortization

Depreciation Expense related to property, plant and equipment totaled \$6.6 million or 1.7% of sales for the three months ended June 30, 2017, an increase of \$1.4 million when compared to the \$5.2 million or 1.6% of sales recorded in the same period of the prior year. The increase was primarily due to the growth in the business.

Amortization of intangible assets for the three months ended June 30, 2017 totaled \$2.9 million or 0.8% of sales, an increase of \$0.4 million when compared to the \$2.5 million or 0.8% of sales expensed for the same period in the prior year. The increase is primarily the result of the addition of new intangible assets from recent acquisitions.

Fair Value Adjustments

Fair Value Adjustment to Convertible Debenture Conversion Features liability resulted in a non-cash expense of \$8.5 million for the second quarter of 2017, compared to a non-cash recovery of \$2.0 million in the same period of the prior year. The fair value for the convertible debenture conversion feature is estimated using a Black-Scholes valuation model. The increase in the liability and the related expense is primarily the result of the increase in the market value of the Fund's units over the conversion price for the 5.25% Convertible Unsecured Subordinated Debentures.

² As defined in the non-GAAP financial measures section of the MD&A

Fair Value Adjustment to Exchangeable Class A Common Shares liability resulted in a non-cash expense of \$2.3 million during the second quarter of 2017 compared to a non-cash recovery of \$0.4 million in the same period of the prior year. The Class A exchangeable shares of BGHI are exchangeable into units of the Fund. This exchangeable feature results in the shares being presented as financial liabilities of the Fund. The liability represents the value of the Fund attributable to these shareholders. Exchangeable Class A shares are measured at the market price of the units of the Fund as of the statement of financial position date. The increase in the liability and the related expense is the result of the increase in the value of the Fund's units.

Fair Value Adjustment to Unit Based Payment Obligation liability was a non-cash expense of \$5.4 million for the second quarter of 2017 compared to \$0.1 million in the same period of the prior year. The cost of cash-settled unit-based transactions is measured at fair value using a Black-Scholes model and expensed over the vesting period with the recognition of a corresponding liability. The increase in the liability and the related expense is primarily the result of the increase in the value of the Fund's units and further vesting of the liability.

Fair Value Adjustment to Non-controlling Interest Put Options liability resulted in a non-cash recovery of \$1.8 million for the second quarter of 2017 compared to a \$0.8 million non-cash expense in the same period of the prior year. The value of the put options is determined by discounting the estimated future payment obligations at each statement of financial position date. Continued pricing and market challenges resulted in a reduction in the value of the put options.

Finance Costs

Finance Costs of \$3.0 million or 0.8% of sales for the three months ended June 30, 2017 increased from \$2.4 million or 0.7% of sales for the same period in the prior year. During the second quarter, finance costs related to the unamortized deferred financing costs were expensed as the revolving credit facility was amended and restated.

Income Taxes

Current and Deferred Income Tax Expense of \$7.8 million for the three months ended June 30, 2017 compares to an expense of \$6.6 million for the same period in 2016. Income tax expense is impacted by permanent differences such as mark-to-market adjustments which impacts the tax computed on accounting income.

Net Earnings and Earnings Per Unit

Net Earnings for the three months ended June 30, 2017 was \$0.4 million or 0.1% of sales compared to net earnings of \$15.2 million or 4.6% of sales in the same period of the prior year. The net earnings amount in 2017 was negatively impacted by the fair value adjustment expense of \$14.3 million and acquisition and transaction costs of \$0.3 million (net of tax). Excluding the impact of these adjustments, net earnings would have increased to \$15.0 million or 3.9% of sales. This compares to adjusted net earnings of \$13.6 million or 4.1% of sales for the same period in 2016 if the same items were adjusted. The increase in the adjusted net earnings for the period is primarily the result of growth in the business.

Basic Earnings Per Unit was \$0.023 per unit for the three months ended June 30, 2017 compared to basic earnings per unit of \$0.843 in the same period in 2016. Diluted loss per unit was \$0.078 for the three months ended June 30, 2017 compared to diluted earnings per unit of \$0.683 in the same period of 2016. The decreases in these amounts are primarily attributed to fair value adjustments during 2017 resulting in a non-cash expense compared to a non-cash recovery in 2016.

Year-to-date Comparison – Six months ended June 30, 2017 vs. 2016

Sales

Sales totaled \$762.9 million for the six months ended June 30, 2017, an increase of \$81.5 million or 12.0% when compared to 2016. The increase in sales was the result of the following:

- \$69.0 million of incremental sales were generated from 71 new locations.
- Same-store sales excluding foreign exchange increased \$12.9 million or 1.9%, and increased a further \$1.1 million due to the translation of same-store sales at a higher U.S. dollar exchange rate. The increase in same-store sales percentage was negatively impacted by approximately 0.9 percentage points due to the loss of a significant customer in GNCS during 2017.
- Sales were affected by the closure of four under-performing facilities which decreased sales by \$1.5 million.

Same-store sales are calculated by including sales for stores that have been in operation for the full comparative period.

Gross Profit

Gross Profit was \$351.4 million or 46.1% of sales for the six months ended June 30, 2017 compared to \$310.8 million or 45.6% of sales for the same period in 2016. Gross profit increased primarily as a result of higher sales compared to the prior period. The gross margin percentage increase is primarily due to some improved DRP pricing as well as certain cost reductions, partially offset by higher labour costs, but is considered to be within the normal range for period to period fluctuations.

Operating Expenses

Operating Expenses for the six months ended June 30, 2017 increased \$32.3 million to \$283.1 million from \$250.8 million for the same period of 2016, primarily due to the acquisition of new locations. Excluding the impact of foreign currency translation of approximately \$0.4 million, expenses increased \$32.6 million from 2016 primarily as a result of new locations. Closed locations lowered operating expenses by \$0.7 million.

Operating expenses as a percentage of sales were 37.1% for the six months ended June 30, 2017, which compared to 36.8% for the same period in 2016. The increase in operating expenses as a percentage of sales was primarily due to pricing and market challenges in the glass business that cause it to underperform in comparison to last year as well as the impact of higher operating expense ratios associated with recent acquisitions.

Adjusted EBITDA

Earnings before interest, income taxes, depreciation and amortization, adjusted for the fair value adjustments related to the exchangeable share liability and unit option liability, convertible debenture conversion features and non-controlling interest put option, as well as acquisition and transaction costs ("Adjusted EBITDA")³ for the six months ended June 30, 2017 totaled \$68.3 million or 8.9% of sales compared to Adjusted EBITDA of \$60.0 million or 8.8% of sales in the prior year. The \$8.3 million increase was primarily the result of improvements in same-store sales along with incremental EBITDA contribution from acquisitions and new locations. Changes in U.S. dollar exchange rates in 2017 increased Adjusted EBITDA by \$0.4 million.

15

² As defined in the non-GAAP financial measures section of the MD&A.

Depreciation and Amortization

Depreciation Expense related to property, plant and equipment totaled \$12.7 million or 1.7% of sales for the six months ended June 30, 2017, an increase of \$2.0 million when compared to the \$10.7 million or 1.6% of sales recorded in the same period of the prior year. The increase was primarily due to the growth in the business.

Amortization of intangible assets for the six months ended June 30, 2017 totaled \$5.7 million or 0.7% of sales, an increase of \$0.8 million when compared to the \$4.9 million or 0.7% of sales expensed for the same period in the prior year. The increase is primarily the result of the addition of new intangible assets from recent acquisitions.

Fair Value Adjustments

Fair Value Adjustment to Convertible Debenture Conversion Features resulted in a non-cash expense of \$8.1 million for the first six months of 2017, compared to \$5.0 million in the same period last year. The fair value for the convertible debenture conversion feature is estimated using a Black-Scholes valuation model. The increase in the liability and the related expense is primarily the result of the increase in the market value of the Fund's units over the conversion price for the 5.25% Convertible Unsecured Subordinated Debentures.

Fair Value Adjustment to Exchangeable Class A Common Shares liability resulted in a non-cash expense of \$2.2 million for the first six months of 2017 compared to \$1.9 million in the prior year. The Class A exchangeable shares of BGHI are exchangeable into units of the Fund. This exchangeable feature results in the shares being presented as financial liabilities of the Fund. The liability represents the value of the Fund attributable to these shareholders. Exchangeable Class A shares are measured at the market price of the units of the Fund as of the statement of financial position date. The fair value adjustment, which increased the liability and the related expense for both years, is the result of increases in the value of the Fund's units.

Fair Value Adjustment to Unit Based Payment Obligation was a non-cash expense of \$6.0 million for the first six months of 2017 compared to \$3.5 million in the prior year. The cost of cash-settled unit-based transactions is measured at fair value using a Black-Scholes model and expensed over the vesting period with the recognition of a corresponding liability. The increase in the liability and the related expense for both years is primarily the result of the increase in the value of the Fund's units and further vesting of the liability.

Fair Value Adjustment to Non-controlling Interest Put Options resulted in a non-cash recovery of \$3.1 million for the first six months of 2017 compared to a non-cash expense of \$0.3 million in the same period of the prior year. The value of the put options is determined by discounting the estimated future payment obligations at each statement of financial position date. Continued pricing and market challenges resulted in a reduction in the value of the put options.

Finance Costs

Finance Costs of \$5.5 million or 0.7% of sales for the six months ended June 30, 2017 increased from \$4.8 million or 0.7% of sales for the prior year. During the second quarter, finance costs related to the unamortized deferred financing costs were expensed as the revolving credit facility was amended and restated.

Income Taxes

Current and Deferred Income Tax Expense of \$15.2 million for the six months ended June 30, 2017 compares to an expense of \$12.9 million for the same period in 2016. Income tax expense is impacted by permanent differences such as mark-to-market adjustments which impacts the tax computed on accounting income.

Net Earnings and Earnings Per Unit

Net Earnings for the six months ended June 30, 2017 was \$15.4 million or 2.0% of sales compared to \$15.5 million or 2.3% of sales last year. The net earnings amount in 2017 was negatively impacted by the fair value adjustments to financial instruments of \$13.1 million which are primarily due to the increase in unit price during the period and acquisition and transaction costs of \$0.4 million (net of tax). Excluding the impact of these adjustments, net earnings would have increased to \$28.9 million or 3.8% of sales. This compares to adjusted net earnings of \$26.5 million or 3.9% of sales for the same period in 2016 if the same items were adjusted. The increase in the adjusted net earnings for the year is the result of the contribution of new location growth as well as increases in same-store sales offset by higher income taxes and depreciation.

Basic Earnings Per Unit was \$0.854 for the first six months ended June 30, 2017 compared to \$0.861 in the same period in 2016. Diluted earnings per unit was \$0.673 for the six months ended June 30, 2017 compared to diluted earnings of \$0.855 per unit in the same period in 2016. The increase in basic earnings per unit is primarily attributed to the contribution of new location growth and same-store sales growth. The decrease in diluted earnings per unit it primarily attributed to the fair value recovery on the non-controlling interest put options.

Sales and adjusted EBITDA have increased in recent quarters due to the acquisitions of J&M Auto, Collision Cure, Collision Care, Adrian's Collision Centers and other new locations as well as same-store sales increases and the impact of foreign currency. The loss in certain quarters is primarily due to the fair value adjustments for exchangeable Class A common shares, unit options, convertible debenture conversion features and non-controlling interest put options, which reduced net earnings, as well as due to expensing acquisition and transaction costs.

LIQUIDITY AND CAPITAL RESOURCES

Cash flow from operations, together with cash on hand and unutilized credit available on existing credit facilities are expected to be sufficient to meet operating requirements, capital expenditures and distributions. At June 30, 2017, the Fund had cash, net of outstanding deposits and cheques, held on deposit in bank accounts totaling \$59.6 million (December 31, 2016 - \$53.5 million). The net working capital ratio (current assets divided by current liabilities) was 1.03:1 at June 30, 2017 (December 31, 2016 – 1.03:1).

At June 30, 2017, the Fund had total debt outstanding, net of cash, of \$93.8 million compared to \$114.1 million at March 31, 2017, \$110.8 million at December 31, 2016, \$119.7 million at September 30, 2016 and \$85.3 million at June 30, 2016. Debt, net of cash, decreased during the second quarter of 2017 as a result of cash flows from operations being used to reduce the revolving credit facility.

Total debt, net of cash (thousands of Canadian dollars)		June 30, 2017	March 31, 2017		Dec	cember 31, 2016	Sep	otember 30, 2016	June 30, 2016

Operating Activities

Cash flow generated from operations, before considering working capital changes, was \$26.3 million for the three months ended June 30, 2017 compared to \$23.9 million in 2016. The increase was primarily due to growth in the business.

In the second quarter of 2017, changes in working capital items provided net cash of \$10.4 million compared to \$10.0 million in 2016. Increases and decreases in accounts receivable, inventory, prepaid expenses, income taxes, accounts payable and accrued liabilities are significantly influenced by timing of collections and expenditures.

Cash flow generated from operations before considering working capital changes, was \$50.2 million for the six months ended June 30, 2017, compared to \$46.6 million for the same period in 2016. The increase reflected higher adjusted EBITDA due to acquisitions and same-store sales growth.

For the six months ended June 30, 2017, changes in working capital items provided net cash of \$6.3 million compared with using \$5.4 million in 2016. Increases and decreases in accounts receivable, inventory, prepaid expenses, income taxes, accounts payable and accrued liabilities are significantly influenced by timing of collections and expenditures.

Financing Activities

Cash used in financing activities totalled \$17.5 million for the three months ended June 30, 2017 compared to cash used in financing activities of \$20.9 million for the prior year. During the second quarter of 2017, cash was used to repay long-term debt in the amount of \$12.9 million as well as for payment of \$0.9 million in financing costs incurred to complete the second amended and restated credit agreement. Cash was also used to repay finance leases in the amount of \$1.3 million and to pay distributions to unitholders, dividends to Class A common shareholders and payments to non-controlling interests totaling \$2.5 million. During the second quarter of 2016, cash was provided by a new draw of the revolving credit facility in the amount of \$6.4 million offset by cash used to repay draws as well as long-term debt associated with seller notes in the amount of \$23.6 million, to repay finance leases in the amount of \$1.3 million and to pay distributions to unitholders and dividends to Class A common shareholders totalling \$2.4 million.

Cash used in financing activities totalled \$17.7 million for the six months ended June 30, 2017 compared to cash used in financing activities of \$5.0 million for the prior year. During 2017, cash was provided by draws of the revolving credit facility in the amount of \$6.6 million offset by cash used to repay draws as well as long-term debt associated with seller notes in the amount of \$16.1 million and payment of \$0.9 million in financing costs incurred to complete the second amended and restated credit agreement. Cash was also used to repay finance leases in the amount of \$2.4 million and to pay distributions to unitholders, dividends to Class A common shareholders and payments to non-controlling interests totaling \$4.9 million. During 2016, cash was provided by draws of the revolving credit facility in the amount of \$28.2 million offset by cash used to repay draws as well as long-term debt associated with seller notes in the amount of \$26.2 million. Cash was also used to repay finance leases in the amount of \$2.7 million and to pay distributions to unitholders and dividends to Class A common shareholders totaling \$4.6 million.

Debt Financing

On May 26, 2017, the Company entered into a second amended and restated credit agreement for a term of five years, increasing the revolving credit facility to \$300,000 U.S., with an accordion feature which can increase the facility to a maximum of \$450,000 U.S. The facility is with a syndicate of Canadian and U.S. banks and is secured by the shares and assets of the Company as well as guarantees by Boyd Group Income Fund and Boyd Group Holdings Inc. The interest rate is based on a pricing grid of the Fund's ratio of total funded debt to EBITDA as determined under the credit agreement. The Company can draw the facility in either the U.S. or in Canada, in either U.S. or Canadian dollars. The Company can make draws in tranches as required. Tranches bear interest only and are not repayable until the maturity date but can be voluntarily repaid at any time. The Company has the ability to choose the base interest rate between Prime, Bankers Acceptances ("BA") or London Inter Bank Offer Rate ("LIBOR"). The total syndicated facility includes a swing line up to a maximum of \$5,000 in Canada and \$20,000 in the U.S. On July 4, 2017, the Company drew on the revolving credit facility in the amount of \$149,049 to fund the cash portion of the purchase price of Assured.

Under the revolving facility the Company is subject to certain financial covenants which must be maintained to avoid acceleration of the termination of the credit agreement. The financial covenants require the Fund to maintain a total debt to EBITDA ratio of less than 4.25; a senior debt to EBITDA ratio of less than 3.25; and a fixed charge coverage ratio of greater than 1.03. For three quarters following a material acquisition, the total debt to EBITDA ratio may be increased to less than 4.75 and the senior debt to EBITDA ratio may be increased to less than 3.75. The debt calculations exclude the convertible debentures.

The Company supplements its debt financing by negotiating with sellers in certain acquisitions to provide financing to the Company in the form of term notes. The notes payable to sellers are typically at favourable interest rates and for terms of five to 15 years. This source of financing is another means of supporting the Fund's growth, at a relatively low cost. In addition to the three new seller notes in the aggregate amount of \$2.6 million that were entered into during the first quarter of 2017, the Fund entered into three new seller notes for an aggregate amount of \$0.6 million in the second quarter of 2017. The Company repaid seller notes in the second quarter of 2017 totaling approximately \$3.4 million (2016 - \$2.3 million). During the first six months of 2017, the Company repaid seller notes totaling approximately \$6.6 million (2016 - \$4.9 million).

The Fund has traditionally used capital leases to finance a portion of both its maintenance and expansion capital expenditures. The Fund expects to continue to use this source of financing where available at competitive interest rates and terms, although this financing also impacts the total leverage capacity covenants under its debt facility. During the first six months of 2017, \$1.0 million (2016 - \$2.5 million) of expenditures for new vehicles were financed through capital leases.

Investing Activities

Cash used in investing activities totalled \$13.1 million and \$31.2 million for the three and six months ended June 30, 2017, compared to \$14.6 million and \$58.7 used in the three and six month periods of the prior year. The investing activity in both periods relates primarily to new location growth that occurred during these periods.

Acquisitions and Development of Businesses

On May 29, 2017, the Company entered into a definitive agreement to acquire the assets and business of Assured Automotive Inc. and related entities ("Assured"), a multi-location collision repair company operating 68 locations in the province of Ontario, including 30 intake centers co-located at automotive dealerships. The acquisition of the assets and business of Assured closed on July 4, 2017, effective July 1, 2017. Assured generated sales of approximately \$150 million for the trailing twelve months ended March 31, 2017.

Since the beginning of 2017, the Company has also added 17 collision locations as follows:

Date	Location	Previously operated as
January 6, 2017	Monroe, NC	Griffin Motors Collision Center
January 13, 2017	Phoenix, AZ (4 locations)	Brighton Collision
March 17, 2017	Portland, OR (2 locations)	True Form
March 31, 2017	Hinesville, GA	n/a start-up
April 19, 2017	Salem, OR	C.E. Miller Auto Body
April 27, 2017	Orem, UT	Adams G3 Collision Repair
May 30, 2017	St. Augustine, Florida	n/a start-up
June 14, 2017	Greensboro, GA	Rodfather's Collision Center & Sales
June 27, 2017	Spokane, WA	City South Auto Body of Spokane
August 4, 2017	Calgary, AB (4 locations)	Concours Collision Centres

The Company completed the acquisition or start-up of 38 locations from the beginning of 2016 until the second quarter reporting date of August 11, 2016.

Capital Expenditures

Although most of Boyd's repair facilities are leased, funds are required to ensure facilities are properly repaired and maintained to ensure the Company's physical appearance communicates Boyd's standard of professional service and quality. The Company's need to maintain its facilities and upgrade or replace equipment, signage, computers, software and courtesy car fleets forms part of the annual cash requirements of the business. The Company manages these expenditures by annually reviewing and determining its capital budget needs and then authorizing major expenditures throughout the year based upon individual business cases. Excluding expenditures related to acquisition and development and those funded through finance leases, the Company spent approximately \$4.3 million or 1.1% of sales on sustaining capital expenditures during the second quarter of 2017, compared to \$3.0 million or 0.9% of sales during the same period in 2016. These same expenditures were \$8.1 million or 1.1% of sales for the six months ended June 30, 2017, compared to \$5.7 million or 0.8% of sales during the same period in 2016.

During 2016 and continuing in 2017, the Company embarked on further transformation of its information technology infrastructure. That program includes upgrading its management information systems as well as hardware, network and security. In the six month period ended June 30, 2017, the Company spent \$2.1 million on this technology infrastructure. Excluding these information technology items as well as expenditures related to acquisition and development, the Company spent \$6.0 million or 0.8% of sales during the six month period ended June 30, 2017.

RELATED PARTY TRANSACTIONS

The Fund has not entered into any new related party transactions beyond the items disclosed in the 2016 annual report.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements that present fairly the financial position, financial condition and results of operations requires that the Fund make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the balance sheet date and reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from these estimates.

The critical accounting estimates are substantially unchanged from those identified in the 2016 annual MD&A.

FUTURE ACCOUNTING STANDARDS

The following is an overview of accounting standard changes that the Fund will be required to adopt in future years:

IFRS 15, Revenue from Contracts with Customers, was issued by the International Accounting Standards Board ("IASB") on May 28, 2014 and will replace current guidance found in IAS 11, Construction Contracts and IAS 18, Revenue. IFRS 15 outlines a single comprehensive model to use in accounting for revenue arising from contracts with customers. On July 22, 2015, the IASB announced a deferral in the effective date for this standard. The standard is effective for reporting periods beginning on or after January 1, 2018 with early application permitted. A choice of retrospective application or a modified transition approach is provided. On April 12, 2016, the IASB issued clarifying amendments to IFRS 15, Revenue from Contracts with Customers. The amendments clarify how to identify a performance obligation in a contract, determine whether a company is a principal or an agent and determine whether the revenue from granting a licence should be recognized at a point in time or over time. The amendments also include additional relief to reduce cost and complexity on initial application. The amendments also require application January 1, 2018. The Fund is currently evaluating the impact of adopting IFRS 15 on its financial statements.

IFRS 9, *Financial Instruments*, was issued by the IASB on July 24, 2014 and will replace current guidance found in IAS 39, *Financial Instruments: Recognition and Measurement*. IFRS 9 includes a logical model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially-reformed approach to hedge accounting. The new standard will come into effect on January 1, 2018 with early application permitted. The Fund is currently evaluating the impact of adopting IFRS 9 on its financial statements.

IFRS 16, *Leases*, was issued by the IASB on January 13, 2016 and will replace the current guidance found in IAS 17, *Leases* and related interpretations. The new standard will bring most leases on-balance sheet through recognition of related assets and liabilities. IFRS 16 establishes principles for recognition, measurement, presentation and disclosure of leases. The new standard will come into effect on January 1, 2019 with early application permitted if IFRS 15, *Revenue from Contracts with Customers* has also been applied. The Fund is currently evaluating the impact of adopting IFRS 16 on its financial statements, but expects this standard will have a significant impact on its consolidated balance sheet, along with a change to the recognition, measurement and presentation of lease expenses in the consolidated statement of earnings.

On June 20, 2016, the IASB issued narrow-scope amendments to IFRS 2, *Share-based Payment*. The amendments provide requirements on the accounting for: (1) the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments; (2) share-based payment transactions with a net settlement feature for withholding tax obligations; and (3) a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity settled. The amendments become mandatory for annual periods beginning on or after January 1, 2018 with early application permitted. The Fund is currently evaluating the impact of adopting these amendments on its financial statements.

INTERNAL CONTROL OVER FINANCIAL REPORTING

The Fund's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. During the second quarter of 2017, there have been no changes in the Fund's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Fund's internal control over financial reporting.

BUSINESS RISKS AND UNCERTAINTIES

Risks and uncertainties affecting the business remain substantially unchanged from those identified in the 2016 annual MD&A.

ADDITIONAL INFORMATION

The Fund's units and convertible debentures trade on the Toronto Stock Exchange under the symbols TSX: BYD.UN and TSX: BYD.DB.A. Additional information relating to the Boyd Group Income Fund is available on SEDAR (www.sedar.com) and our website (www.boydgroup.com).

FORM 52-109F2 CERTIFICATION OF INTERIM FILINGS FULL CERTIFICATE

I, Brock Bulbuck, Chief Executive Officer, Boyd Group Income Fund, certify the following:

- 1. **Review:** I have reviewed the interim financial report and interim MD&A (together, the "interim filings") of **Boyd Group Income Fund** (the "issuer") for the interim period ended **June 30, 2017**.
- 2. **No misrepresentations:** Based on my knowledge, having exercised reasonable diligence, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, for the period covered by the interim filings.
- 3. *Fair presentation:* Based on my knowledge, having exercised reasonable diligence, the interim financial report together with the other financial information included in the interim filings fairly present in all material respects the financial condition, financial performance and cash flows of the issuer, as of the date of and for the periods presented in the interim filings.
- 4. *Responsibility:* The issuer's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (DC&P) and internal control over financial reporting (ICFR), as those terms are defined in National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings, for the issuer.
- 5. **Design:** Subject to the limitations, if any, described in paragraphs 5.2 and 5.3, the issuer's other certifying officer(s) and I have, as at the period covered by the interim filings
 - (a) designed DC&P, or caused it to be designed under our supervision, to provide reasonable assurance that
 - (i) material information relating to the issuer is made known to us by others, particularly during the period in which the interim filings are being prepared; and
 - (ii) information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
 - (b) designed ICFR, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP.
- 5.1 *Control framework:* The control framework the issuer's other certifying officer(s) and I used to design the issuer's ICFR is the Internal Control Integrated Framework (COSO 2013 Framework), published by The Committee of Sponsoring Organizations of the Treadway Commission.
- 5.2 ICFR material weakness relating to design: N/A
- 5.3 Limitation on scope of design: N/A
- 6. **Reporting changes in ICFR:** The issuer has disclosed in its interim MD&A any change in the issuer's ICFR that occurred during the period beginning on January 1, 2017 and ended on June 30, 2017 that has materially affected, or is reasonably likely to materially affect, the issuer's ICFR.

For the three and six months ended June 30, 2016 and 2017 (thousands of Canadian dollars, except unit, share and per unit/share amounts)

1. GENERAL INFORMATION

Boyd Group Income Fund (the "Fund" or "BGIF") is an unincorporated, open-ended mutual fund trust established under the laws of the Province of Manitoba, Canada on December 16, 2002. It was established for the purposes of acquiring and holding a majority interest in The Boyd Group Inc. (the "Company"). The Company is partially owned by Boyd Group Holdings Inc. ("BGHI"), which is controlled by the Fund. These financial statements reflect the activities of the Fund, the Company and all its subsidiaries including BGHI.

The Company's business consists of the ownership and operation of autobody/autoglass repair facilities and related services. At the reporting date, the Company operated locations in five Canadian provinces under the trade name Boyd Autobody & Glass, as well as in 20 U.S. states under the trade name Gerber Collision & Glass. The Company uses newly acquired brand names during a transition period until acquired locations have been rebranded. The Company is also a major retail auto glass operator in the U.S. with locations across 31 U.S. states under the trade names Gerber Collision & Glass, Glass America, Auto Glass Service, Auto Glass Authority and Autoglassonly.com. The Company also operates Gerber National Claim Services ("GNCS"), which offers glass, emergency roadside and first notice of loss services with approximately 5,500 glass provider locations and 4,600 Emergency Roadside Services provider locations throughout the U.S.

The units and convertible debentures of the Fund are listed on the Toronto Stock Exchange and trade under the symbols "BYD.UN" and "BYD.DB.A". The head office and principal address of the Fund are located at 3570 Portage Avenue, Winnipeg, Manitoba, Canada, R3K 0Z8.

The policies applied in these interim condensed consolidated financial statements are based on International Financial Reporting Standards ("IFRS") issued and outstanding as of August 10, 2017, the date the Board of Trustees approved the statements. Any subsequent changes to IFRS that are given effect in the Fund's annual consolidated financial statements for the year ending December 31, 2017 could result in restatement of these interim condensed consolidated financial statements.

2. BASIS OF PRESENTATION AND SUMMARY OF ACCOUNTING POLICIES

These interim condensed consolidated financial statements for the three and six months ended June 30, 2017 have been prepared in accordance with IAS 34, "Interim financial reporting" using the same accounting policies and methods of computation followed in the consolidated financial statements for the year ended December 31, 2016. During the three and six months ended June 30, 2017, the Fund did not adopt any changes in accounting policies that resulted in a material impact to the financial statements of the Fund. The interim condensed consolidated financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2016, which have been prepared in accordance with IFRS.

3. ACCOUNTING STANDARDS AND AMENDMENTS ISSUED BUT NOT YET ADOPTED

The following is an overview of accounting standard changes that the Fund will be required to adopt in future years:

IFRS 15, Revenue from Contracts with Customers, was issued by the International Accounting Standards Board ("IASB") on May 28, 2014 and will replace current guidance found in IAS 11, Construction Contracts and IAS 18, Revenue. IFRS 15 outlines a single comprehensive model to use in accounting for revenue arising from contracts with customers. On July 22, 2015, the IASB announced a deferral in the effective date for this standard. The standard is effective for reporting periods beginning on or after January 1, 2018 with early application permitted. A choice of retrospective application or a modified transition approach is provided. On April 12, 2016, the IASB issued clarifying amendments to IFRS 15, Revenue from Contracts with Customers. The amendments clarify how to identify a performance obligation in a contract, determine whether a company is a principal or an agent and determine whether the revenue from granting a licence should be recognized at a point in time or over time. The amendments also include additional relief to reduce cost and complexity on initial application. The amendments also require application January 1, 2018. The Fund is currently evaluating the impact of adopting IFRS 15 on its financial statements.

For the three and six months ended June 30, 2016 and 2017

(thousands of Canadian dollars, except unit, share and per unit/share amounts)

IFRS 9, *Financial Instruments*, was issued by the IASB on July 24, 2014 and will replace current guidance found in IAS 39, *Financial Instruments: Recognition and Measurement*. IFRS 9 includes a logical model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially-reformed approach to hedge accounting. The new standard will come into effect on January 1, 2018 with early application permitted. The Fund is currently evaluating the impact of adopting IFRS 9 on its financial statements.

IFRS 16, *Leases*, was issued by the IASB on January 13, 2016 and will replace the current guidance found in IAS 17, *Leases* and related interpretations. The new standard will bring most leases on-balance sheet through recognition of related assets and liabilities. IFRS 16 establishes principles for recognition, measurement, presentation and disclosure of leases. The new standard will come into effect on January 1, 2019 with early application permitted if IFRS 15, *Revenue from Contracts with Customers* has also been applied. The Fund is currently evaluating the impact of adopting IFRS 16 on its financial statements, but expects this standard will have a significant impact on its consolidated balance sheet, along with a change to the recognition, measurement and presentation of lease expenses in the consolidated statement of earnings.

On June 20, 2016, the IASB issued narrow-scope amendments to IFRS 2, *Share-based Payment*. The amendments provide requirements on the accounting for: (1) the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments; (2) share-based payment transactions with a net settlement feature for withholding tax obligations; and (3) a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity settled. The amendments become mandatory for annual periods beginning on or after January 1, 2018 with early application permitted. The Fund is currently evaluating the impact of adopting these amendments on its financial statements.

4. ACQUISITIONS

The Fund completed seven acquisitions that added 11 locations during the six months ended June 30, 2017 as follows:

Acquisition Date	Location
January 6, 2017	Monroe, North Carolina
January 13, 2017	Phoenix, Arizona (4 locations)
March 17, 2017	Portland, Oregon (2 locations)
April 19, 2017	Salem, Oregon
April 27, 2017	Orem, Utah
June 14, 2017	Greensboro, Georgia
June 27, 2017	Spokane, Washington

For the three and six months ended June 30, 2016 and 2017

(thousands of Canadian dollars, except unit, share and per unit/share amounts)

Acquisitions in 2017		Total uisitions
Identifiable net assets acquired at fair value:		
Other currents assets	\$	239
Property, plant and equipment		4,879
Identified intangible assets		
Customer relationships		4,130
Non-compete		238
Identifiable net assets acquired	\$	9,486
Goodwill		8,418
Total purchase consideration	\$	17,904
Consideration provided		
Cash paid or payable	\$	14,668
Sellers notes	·	3,236
Total consideration provided	\$	17,904

The preliminary purchase prices for the 2017 acquisitions as disclosed above may be revised as additional information becomes available. Further adjustments may be recorded in future periods as purchase price adjustments are finalized.

U.S. acquisition transactions are initially recognized in Canadian dollars at the rates of exchange in effect on the transaction dates. Subsequently, the assets and liabilities are translated at the rate in effect at the Statement of Financial Position date.

A significant part of the goodwill recorded on the acquisitions can be attributed to the assembled workforce and the operating know-how of key personnel. However, no intangible assets qualified for separate recognition in this respect.

Goodwill recognized during 2017 is expected to be deductible for tax purposes.

For the three and six months ended June 30, 2016 and 2017 (thousands of Canadian dollars, except unit, share and per unit/share amounts)

5. PROPERTY, PLANT AND EQUIPMENT

As at	June 30, 2017			December 31, 2016		
Balance, beginning of year	\$	161,813	\$	133,043		
Acquired through business combination		4,879		20,979		
Additions		17,465		34,501		
Proceeds on disposal		(259)		(936)		
Gain on disposal		118		574

Balance, end of period	\$	165,899	\$	161,813		

6. INTANGIBLE ASSETS

As at	June 30, 2017			December 31, 2016		
Balance, beginning of year Acquired through business combination Additions Amortization Purchase price allocation adjustments within the measurement period Foreign exchange	\$	158,514 4,368 217 (5,662) 1,109 (5,255)	\$	143,679 27,971 1,369 (10,698) - (3,807)		
Balance, end of period	\$	153,291	\$	158,514		

The purchase price allocation adjustments represent balance sheet reclassifications between intangible assets, deferred income taxes and goodwill within the measurement period for certain 2016 acquisitions.

7. GOODWILL

As at	J	De	ecember 31, 2016	
Balance, beginning of year	\$	230,701	\$	183,623
Acquired through business combination		8,418		51,319
Deferred tax liability on purchase price allocation adjustment		1,107		-
Purchase price allocation adjustments within the measurement period		(1,109)		-
Foreign exchange		(7,457)		(4,241)
Balance, end of period	\$	231,660	\$	230,701

The purchase price allocation adjustments represent balance sheet reclassifications between intangible assets, deferred income taxes and goodwill within the measurement period for certain 2016 acquisitions.

For the three and six months ended June 30, 2016 and 2017 (thousands of Canadian dollars, except unit, share and per unit/share amounts)

8. DISTRIBUTIONS AND DIVIDENDS

The Fund's Trustees have discretion in declaring distributions. The Fund's distribution policy is to make distributions of its available cash from operations taking into account current and future performance amounts necessary for principal and interest payments on debt obligations, amounts required for maintenance capital expenditures and amounts allocated to reserves.

Distributions to unitholders and dividends on the exchangeable Class A shares were declared and paid as follows:

		Distrib	ution per Unit /				
Record date	Divid	end per Share	Distribu	tion amount	Dividend amount		
January 31, 2017	February 24, 2017	\$	0.0430	\$	776	\$	10
February 28, 2017	March 29, 2017		0.0430		777		10
March 31, 2017	April 26, 2017		0.0430		777		10
April 30, 2017	May 29, 2017		0.0430		777		10
May 31, 2017	June 28, 2017		0.0430		777		10
June 30, 2017	July 27, 2017		0.0430		777		10
		\$	0.2580	\$	4,661	\$	60

Record date	Payment date	ution per Unit / end per Share	Distrib	ution amount	Divi	dend amount
January 31, 2016	February 25, 2016	\$ 0.0420	\$	757	\$	11
February 29, 2016	March 29, 2016	0.0420		757		11
March 31, 2016	April 27, 2016	0.0420		757		11
April 30, 2016	May 27, 2016	0.0420		758		10
May 31, 2016	June 28, 2016	0.0420		758		10
June 30, 2016	July 27, 2016	0.0420		758		10
		\$ 0.2520	\$	4,545	\$	63

At June 30, 2017, there were 203,453 (December 31, 2016 - 204,193) exchangeable Class A shares outstanding with a carrying value of \$19,562 (December 31, 2016 - \$17,471).

During 2017, a fair value adjustment expense in the amount of \$2,154 (2016 – \$1,873) was recorded to earnings related to these exchangeable Class A shares.

Further distributions and dividends were declared for the month of July 2017 in the amount of \$0.043 per unit/share.

For the three and six months ended June 30, 2016 and 2017 (thousands of Canadian dollars, except unit, share and per unit/share amounts)

9. LONG-TERM DEBT

On May 26, 2017, the Company entered into a second amended and restated credit agreement for a term of five years, increasing the revolving credit facility to \$300,000 U.S., with an accordion feature which can increase the facility to a maximum of \$450,000 U.S. The facility is with a syndicate of Canadian and U.S. banks and is secured by the shares and assets of the Company as well as guarantees by BGIF and BGHI. The interest rate is based on a pricing grid of the Fund's ratio of total funded debt to EBITDA as determined under the credit agreement. The Company can draw the facility in either the U.S. or in Canada, in either U.S. or Canadian dollars. The Company can make draws in tranches as required. Tranches bear interest only and are not repayable until the maturity date but can be voluntarily repaid at any time. The Company has the ability to choose the base interest rate between Prime, Bankers Acceptances ("BA") or London Inter Bank Offer Rate ("LIBOR"). The total syndicated facility includes a swing line up to a maximum of \$5,000 in Canada and \$20,000 in the U.S.

Under the revolving facility, the Company is subject to certain financial covenants which must be maintained to avoid acceleration of the termination of the credit agreement. The financial covenants require the Fund to maintain a total debt to EBITDA ratio of less than 4.25; a senior debt to EBITDA ratio of less than 3.25; and a fixed charge coverage ratio of greater than 1.03. For three quarters following a material acquisition, the total debt to EBITDA ratio may be increased to less than 4.75 and the senior debt to EBITDA ratio may be increased to less than 3.75. The debt calculations exclude the convertible debentures. As at June 30, 2017, \$29,847 (\$23,000 U.S.) had been drawn under the revolving facility.

Deferred financing costs of \$356 were incurred during 2015 to complete the amended and restated credit agreement. These fees were amortized to finance costs on a straight line basis over the five year term of the amended and restated credit agreement until May 26, 2017 when the second amended and restated credit agreement was signed. At that time, the unamortized deferred financing costs of \$226 were recorded as finance costs. Financing costs of \$859 incurred during 2017 to complete the second amended and restated credit agreement have been deferred. These fees are amortized to finance costs on a straight line basis over the five year term of the second amended and restated credit agreement. The unamortized deferred financing costs of \$844 have been netted against the debt drawn as at June 30, 2017.

As at June 30, 2017, the Company was in compliance with all financial covenants.

Long-term debt is comprised of the following:

As at	June : 201		De	cember 31, 2016
Revolving credit facility (net of financing costs) Seller notes	•	29,003 52,793	\$	33,318 68,299
Current portion	•	01,796 14,713	\$	101,617 12,329
	\$ 7	7,083	\$	89,288

For the three and six months ended June 30, 2016 and 2017

(thousands of Canadian dollars, except unit, share and per unit/share amounts)

The following is the continuity of long-term debt:

As at	ine 30, De 2017	December 31, 2016		
Balance, beginning of year	\$ 101,617 \$	66,547		
Consideration on acquisition	3,236	13,706		
Net draw	6,555	54,332		
Repayment	(16,123)	(31,147)		
Deferred financing costs	(859)	(321)		
Amortization of deferred finance costs	264	71		
Foreign exchange	(2,894)	(1,571)		
Balance, end of period	\$ 91,796 \$	101,617		

The following table summarizes the repayment schedule of the long-term debt:

Principal Payments	June 30, 2017		Dec	cember 31, 2016
Less than 1 year 1 to 5 years Greater than 5 years	\$ 14,77 59,59 17,49	00	\$	12,329 69,928 19,360
	\$ 91,79	96	\$	101,617

Included in finance costs for the six month period ended June 30, 2017 is interest on long-term debt of \$3,055 (2016 - \$2,132).

10. FAIR VALUE ADJUSTMENTS

Exchangeable Class A common shares	FVTPL (1)	1	19,562	19,562	17,471	17,471
Non-controlling interest put options	FVTPL (1)	3	25,008	25,008	29,202	29,202

⁽¹⁾ Fair Value Through Profit or Loss

For the Fund's current financial assets and liabilities, including accounts receivable, notes receivable and accounts payable and accrued liabilities, distributions payable and dividends payable, which are short term in nature and subject to normal trade terms, the carrying values approximate their fair value. As there is no ready secondary market for the Fund's long-term debt, the fair value has been estimated using the discounted cash flow method. The fair value using the discounted cash flow method is approximately equal to carrying value. The fair value for the non-controlling interest put option is based on the estimated cash payment or receipt necessary to settle the contract at the Statement of Financial Position date. Cash payments or receipts are based on discounted cash flows using current market rates and prices and adjusted for credit risk. The fair value of the exchangeable Class A shares is estimated using the market price of the units of Fund as of the statement of financial position date. The fair value for the 2014 convertible debenture conversion feature is estimated using a Black-Scholes valuation model with the following assumptions used: stock price \$96.15, dividend yield 0.68%, expected volatility 25.89%, risk free interest rate of 1.06%, term of four years. The fair value for the Fund's debentures will change based on the movement in bond rates and changes in the Fund's credit rating.

Collateral

The Company's syndicated loan facility is collateralized by a General Security Agreement. The carrying amount of the financial assets pledged as collateral for this facility at June 30, 2017 was approximately \$141,939 (December 31, 2016 - \$141,337).

Non-controlling interest put option

On May 31, 2013, the Fund entered into an agreement whereby Glass America contributed its auto-glass business to Gerber Glass in exchange for shares representing a 30% ownership interest in a new combined Glass America entity. The agreement contains a put option, which provides the non-controlling interest with the right to require the Fund to purchase their retained interest according to a valuation formula defined in the agreement. All changes in the estimated liability are recorded in earnings. The put option was restricted until June 1, 2015.

For the three and six months ended June 30, 2016 and 2017 (thousands of Canadian dollars, except unit, share and per unit/share amounts)

On May 31, 2013, in connection with the acquisition of Glass America, the Fund entered into an agreement that provides a member of its U.S. management team the opportunity to participate in the future growth of the Fund's U.S. glass business. Within the agreement was a put option held by the non-controlling shareholder that provided the shareholder an option to put the business back to the Fund according to a valuation formula defined in the agreement. On October 31, 2016, the Fund amended this May 31, 2013 agreement. The put option held by the non-controlling shareholder continues to provide the shareholder an option to put the business back to the Fund according to a valuation formula defined in the agreement; however, the put option is not exercisable until December 31, 2018 and is exercisable anytime thereafter by the glass-business operating partner. The put option may be exercised before December 31, 2018 upon the occurrence of certain unusual events such as a change of control or resignation of the operating partner. All fair value changes in the estimated liability are recorded in earnings.

The liability recognized in connection with both put options has been calculated using formulas defined in the agreements. The formula for the Glass America put is based on a multiple of EBITDA for the trailing twelve months. The formula for the U.S. management team member put is based on multiples of estimated future earnings of the Glass America business and estimated future exercise dates. The estimated future payment obligation is then discounted to its present value at each statement of financial position date. The significant unobservable inputs include the put being exercised in two years at a probability weighted estimated EBITDA level as at December 31, 2018 of approximately \$8,600 USD using a discount rate of 9%. An increase in the EBITDA level or a reduction in the discount rate would increase the put liability.

During 2017, the Fund made \$140 (2016 - \$89) in payments to the Glass America non-controlling interest.

The liability for non-controlling interest put options comprises the following:

As at	ine 30, 2017	Dec	2016
Glass-business operating partner non-controlling interest put option Glass America non-controlling interest put option	\$ 7,839 17,169	\$	7,998 21,204
	\$ 25,008	\$	29,202

The change in the non-controlling interest put option liabilities is summarized as follows:

		June 3	0, 201	17		December	: 31,	2016
	op	s-business erating artner	iting non-controlling operating non-control		operating		ass America n-controlling interest	
Balance, beginning of year Fair value adjustments Payment to non-controlling interests Foreign exchange	\$	7,998 117 - (276)	\$	21,204 (3,199) (140) (696)	\$	10,850 (2,480) - (372)	\$	23,888 (1,789) (156) (739)
Balance, end of period	\$	7,839	\$	17,169	\$	7,998	\$	21,204

During 2017, a fair value adjustment recovery in the amount of \$3,082 (2016 – expense of \$340) was recorded to earnings related to these non-controlling interest put options.

For the three and six months ended June 30, 2016 and 2017 (thousands of Canadian dollars, except unit, share and per unit/share amounts)

12. UNIT BASED PAYMENT OBLIGATION

Pursuant to the Fund's Option Agreement and Confirmation, the Fund has granted options to purchase units of the Fund to certain key executives. The following options are outstanding:

				June 30, 2017	D	ecember 31, 2016
Issue Date	Number of Units	Exercise Price	Expiry Date	Fair Value		Fair Value
January 2, 2008	150,000	\$ 2.70	January 2, 2018	\$ 13,493	\$	11,301
January 2, 2009	150,000	\$ 3.14	January 2, 2019	12,126		10,138
January 2, 2010	150,000	\$ 5.41	January 2, 2020	10,772		8,963
				\$ 36,391	\$	30,402

The fair value of each outstanding option is estimated using a Black-Scholes valuation model with the following assumptions used for the outstanding options granted: stock price \$96.15, dividend yield 0.68% and expected volatility 25.89% (determined as a weighted standard deviation of the unit price over the past four years). The risk free interest rate assumptions used in the valuation model are as follows: January 2, 2008 issuance – 0.55%, January 2, 2009 issuance – 0.68%, January 2, 2010 issuance - 0.79%.

During 2017, a fair value adjustment expense in the amount of \$5,989 (2016 - \$3,524) was recorded to earnings related to these unit based payment obligations.

13. SEASONALITY

The Fund's financial results for any individual quarter are not necessarily indicative of results to be expected for the full year. Interim period revenues and earnings are typically sensitive to regional and local weather, market conditions, and in particular, to cyclical variations in economic activity.

14. SEGMENTED REPORTING

The Fund has one reportable line of business, being automotive collision repair and related services, with all revenues relating to a group of similar services. In this circumstance, IFRS requires the Fund to provide geographical disclosure. For the periods reported, all of the Fund's revenues were derived within Canada or the United States of America. Reportable assets include property, plant and equipment, goodwill and intangible assets which are all located within these two geographic areas.

15. SHARE-BASED COMPENSATION

Certain executive officers of the Fund, as well as the Board of Directors of the Company and BGHI, participate in share-based compensation plans. These plans are cash-settled, with compensation expense determined based on the fair value of the associated liability at the end of the reporting period until the awards are settled.

Long-term incentive plan

On January 1, 2016 and January 1, 2017, Performance Cash Units were granted to certain executive officers for the 2016 and 2017 grant years. Performance Cash Units are tied to unit value from date of grant to the date of payment and will vest and be paid out in cash over a three-year period, subject to the terms of the plan. Performance Cash Units represent the right to receive payments linked to the Fund's unit value, conditional, in whole or in part, upon the achievement of one or more objective performance goals. The distribution rate declared by the Fund on issued and outstanding units of the Fund is also applied to the Performance Cash Units. The distribution amount on the Performance Cash Units is converted into additional Performance Cash Units based on the market value of the Fund's units at the time of the distribution. These additional Performance Cash Units vest at the same time as the Performance Cash Units that the distribution rate was applied on.

The 2016 and 2017 Awards include non-market performance conditions. The impact of market and non-market performance conditions is recognized through the adjustment of the award that is expected to vest. At the end of each reporting period, the Fund re-assesses its estimates of the number of awards that are expected to vest and recognizes the impact of the revision to compensation expense in earnings over the vesting period.

The fair value of each outstanding Performance Cash Unit is estimated based on the fair market value of the Fund's units at the grant date, subsequently adjusted for additional units granted based on the reinvestment of notional distributions and the market value of the units at the end of each reporting period. The associated compensation expense is recognized over the vesting period, factoring in the probability of the performance criteria being met during that period.

Directors Deferred Share Unit Plan

On December 22, 2015, the Board of Trustees approved a Directors Deferred Share Unit Plan ("DSUP"), effective December 31, 2015. Independent members of the Board of Trustees of the Fund are separately compensated for their duties as Trustees of the Fund and for their duties as Directors of the Company and BGHI. The DSUP is administered through BGHI and requires independent Trustees, who are also Directors of the Company and BGHI, to receive at least 60% of their Director compensation in the form of deferred shares, which are essentially notional shares of BGHI and are redeemable for cash on termination. Directors may elect to receive up to 100% of their Director compensation in the form of deferred shares. The number of deferred share units to which a Director is entitled will be adjusted for the payment of dividends or other cash distributions on the Class A common shares of BGHI.

For the three and six months ended June 30, 2016 and 2017

(thousands of Canadian dollars, except unit, share and per unit/share amounts)

The fair value of each outstanding Director Deferred Share Unit is estimated based on the fair market value of the BGHI's shares at the grant date, subsequently adjusted for additional shares granted based on the reinvestment of notional dividends and the market value of the shares at the end of each reporting period.

17. SUBSEQUENT EVENT

On May 29, 2017, the Company entered into a definitive agreement to acquire the assets and business of Assured Automotive Inc. and related entities ("Assured"), a multi-location collision repair company operating 68 locations in the province of Ontario, including 30 intake centers co-located at automotive dealerships. The acquisition of the assets and business of Assured closed on July 4, 2017, effective July 1, 2017. Consideration totalled \$200,765 of which \$149,049 was paid in cash and \$51,716 was provided by way of issuance of 537,872 Boyd Group Income Fund units. The Company drew on the revolving credit facility in the amount of \$149,049 to fund the cash portion of the purchase price of Assured.

Cash consideration of \$149,049 included \$2,949 in growth capital. During the negotiation of the acquisition, Assured continued to acquire additional businesses and assets and make certain capital expenditures, for which they were reimbursed. Consideration of \$47,500 was provided in Boyd Group Income Fund units priced at \$88.31 per unit. As at June 30, 2017, Boyd Group Income Fund units were valued at \$96.15, bringing the fair value of this consideration to \$51,716 at the time of acquisition.
