# Evolving Collision Repair Market

- Large multi shop collision repair operator (“MSO”) market share opportunity
  - The top 3 consolidators represent an 18.8% share of collision repair revenue in 2019 as compared to 15.7% in 2018 and only 1.7% in 2006.
  - 106 MSOs had revenues of \$20 million or greater in 2019
  - The top 3 consolidators together represent 44.7% of revenue of large MSOs
  - MSOs benefit from standardized processes, integration of technology platforms and expense reduction through large scale supply chain management

# Strong Relationships with Insurance Companies through DRPs

- Direct Repair Programs (“DRPs”) are established between insurance companies and collision repair shops to better manage auto repair claims and the level of customer satisfaction
- Auto insurers utilize DRPs for a growing percentage of collision repair claims volume
- Growing preference among insurers for DRP arrangements with multi-location collision repair operators
- Boyd is well positioned to take advantage of these DRP trends with all major insurers and most regional insurers
- Boyd’s relationship with insurance customers
  - Top 5 largest customers contributed 46% of revenue in 2020
  - Largest customer contributed 13% of revenue in 2020

# Insurer Market Dynamics

**Top 10 Insurer Market Share (U.S.)**

**Insurer DRP Usage**

# Impact of Collision Avoidance Systems

- CCC estimates technology will reduce accident frequency by ~30% in next 25-30 years
- As per industry studies, decline should be somewhat offset by increases in average cost of repair (increased expense of technology) and vehicle miles driven
- Large operators could also mitigate market decline by continued market share gains in consolidating industry

# SSSG - Optimizing Returns from Existing Operations

Same-store sales increases in 31 of 40 most recent quarters

\*Total Company, excluding FX.

\*\*Adjusting for the positive impact of hail in Q4-11, SSSG was 4.7%

\*\*\*Adjusting for the negative impact of Hurricane Irma and Hurricane Harvey, Q3-17 SSSG was 1.0%

\*\*\*\*Normalizing for the impact of hurricanes in the comparative period, Q3-18 SSSG was 3.6%

\*\*\*\*\* The results for Q2, Q3 and Q4 2020, as well as Q1 2021 were significantly impacted by the COVID-19 pandemic. Due to the nature and significant impact of COVID-19 on the results, SSSG for Q2, Q3 and Q4 2020, as well as Q1 and Q2 2021 have been excluded from the 3-year, 5-year and 10-year SSSG calculations.

# Focus on Accretive Growth

- Goal: double the size of the business during the five-year period from 2021 to 2025, based on 2019 revenues, on a constant currency basis
- Implied compound average annual growth rate of 15%:
  - Same-store sales
  - Acquisition or development of single locations
  - Acquisition of multiple-location businesses
- Well positioned to take advantage of large acquisitions

# U.S. Dollar Reporting

- To reduce volatility from exchange rates, effective January 1, 2021, Boyd began reporting results in U.S. Dollars.
- Given almost 90% of Boyd's revenues come from the U.S., this is considered an appropriate currency for reporting purposes.

# Canadian Emergency Wage Subsidy ("CEWS")

- CEWS was put into place on April 11, 2020 and has now been extended to September 25, 2021, with a proposal to further extend the program until October 23, 2021
- As is the objective of the program, Boyd has been able to retain more of its employees than would have been possible, absent the subsidy
- Adjusted EBITDA for the three months ended June 30, 2021 benefited from the CEWS in the amount of approximately \$3.6 million, as compared to \$3.4 million in the same period of the prior year
